PREFACE

Industry plays a vital role in the economy of a State. The Index of Industrial Production (IIP) is one of the prime short-term micro economic indicators of the economic development to measure trend in the behaviour of the industrial performance over a period of time in comparison to a chosen base year. It indicates the relative change of physical production in the field of industries during a specified year as compared to previous year.

The Department of Economic and Statistical Analysis, Haryana has been compiling the Index of Industrial Production for Haryana State under the guidance of the Central Statistical Organisation (CSO), Govt. of India since 1971-72 and publish the report periodically. The present report containing informations relating to IIP from the year 1999-2000 to 2008-09 is the second issue of the series with base year 1999-2000. The Index of Industrial Production of Haryana State relates to Mining & Quarrying, Manufacturing and Electricity Sectors with an analysis of use-based classification of the index numbers.

This report provides an useful information for planners, industrialists and researchers etc. interested in the industrial development of the State. The report is also available on deptts. web site www.esaharyana.gov.in.

I take this opportunity to thank the Central Statistical Organisation, Government of India for providing valuable guidance. Efforts made by the District Statistical Officers for timely collection of production data from the industrial units is thankfully acknowledged. The cooperation extended by various industrial units for providing required production data for computation of IIP is also highly appreciated and acknowledged.

This report has been prepared by Sh. I.S.Mann, Research Officer with the help of Smt. Veena Sharma, Assistant Research Officer and Smt. Krishna Sharma, Steno typist. Useful work done by them for bringing out the report is acknowledged. Efforts have been made to improve the quality of the report. Suggestions for further improvement are most welcome.

Chandigarh
Dated the 25th May, 2010

R.K. BISHNOI
Director, Department of Economic and Statistical
Analysis, Haryana.

EXECUTIVE SUMMARY

Industrialisation plays a vital and crucial role in the economic development of an economy. It accelerates economic growth of a State and thereby increases the contribution of industry sector in the State Domestic Product by way of increase in the production and employment. Index of Industrial Production (IIP) is one of the prime indicators of the economic development for measurement of trend in the industrial production over a period of time with reference to a chosen base year.

The Index of Industrial Production for the State is compiled in accordance with the guidelines of the Central Statistical Organisation (CSO), Govt of India. In the Ist part of the report detail methodology for selection of items basket, weighting diagram, source of data and computation of index number has been given. 103 items have been selected from registered manufacturing sector which covers 79.30 percent of total gross value of output of registered manufacturing sector for the year 1999-2000. Mining & quarrying and electricity have been taken as single item. The total weight of industrial sector has been taken as 1000 which has been distributed to Mining & Quarrying, Registered Manufacturing & Electricity sectors as per their Gross Value Added(GVA) figures. The weights of registered manufacturing sector have further been distributed at 2/3/4 digit as well as item level as per criteria suggested by CSO. Production data of selected items is collected directly from the selected factories in the State.

Index of Industrial Production presently being prepared in the State with 1999-2000 as base year covers Manufacturing, Electricity and Mining & Quarrying sectors. Index number have been calculated at sector level, group level (2 digit) and item level. The same has been presented in the report accordingly. Review of index numbers for the year 2008-09 has also been given in the report.

The General Index of Industrial Production with 1999-2000 as base year increased from 194.89 in 2007-08 to 201.68 in 2008-09 registering an increase of 3.48 percent. The Index of Manufacturing Sector which carries the highest weight in IIP rose from 192.37 in 2007-08 to 196.85 in 2008-09, exhibiting a growth of 2.33 percent. The Index of Electricity Sector indicated a growth of 16.46 percent as it rose from 271.70 in 2007-08 to 316.43 in 2008-09. Like wise the index of Mining & Quarrying Sector increased from 89.46 in 2007-08 to 95.99 in 2008-09 registering a growth of 7.30 percent.

In the last part of the report use-based classification which represents the changing pattern of customers needs, based on taste and habits towards the purchase of industrial product has been given. Review of the used based classification for the year 2008-09 has also been given therein.

The report elaborates that the Index of Basic Goods Industries like fertilizers, insecticides, pesticides, various items of iron, steel & stainless steel, mining & quarrying and electricity etc. increased from 166.48 in 2007-08 to 180.01 in 2008-09 recording an increase of 8.13 percent.

The Index of Capital Goods Industries like tractors, motors cars, cranes, compressors, dump loaders, refrigerators, A.C. motors and insulated cables etc. increased from 167.25 in 2007-08 to 173.65 in 2008-09 showing an increase of 3.83 percent.

The Index of Intermediate Goods Industries like yarn, dyes and colours, glass bottles, fibre glass sheet/board, gas cylinders, motor vehicle parts & accessories and parts & accessories of motor cycles, scooters and three wheelers etc. increased from 206.97 in 2007-08 to 219.50 in 2008-09 recording an increase of 6.05 percent.

The Index of Consumer Goods Industries decreased from 223.64 in 2007-08 to 223.55 in 2008-09 showing an negligible decrease of 0.04 percent. The Index of Consumer Durable Goods Industries like tyres/tubes, radio telephone system, motor cycles, bicycles and utensils all type etc. increased from 315.40 in 2007-08 to 323.93 in 2008-09 indicating an increase of 2.70 percent over the previous year. The Index of Consumer Non-Durable Goods Industries like milk, milk powder, desi ghee, rice, sugar, edible oil, leather shoes, readymade garments and papers etc. increased from 175.76 in 2007-08 to 171.18 in 2008-09 exhibiting an decrease of 2.61 percent over the previous year.

Methodology

of

Index of Industrial Production

in

Haryana

INTRODUCTION

Industrial Sector occupies an important position in Indian Economy and has pivotal role to play in the rapid and balanced economic development. Index of Industrial Production (IIP) is one of the tools for measuring the growth of the industrial sector at a particular point of time. The index shows the relative change over time in the volume of industrial production and is an effective tool to measure the trend of current industrial production.

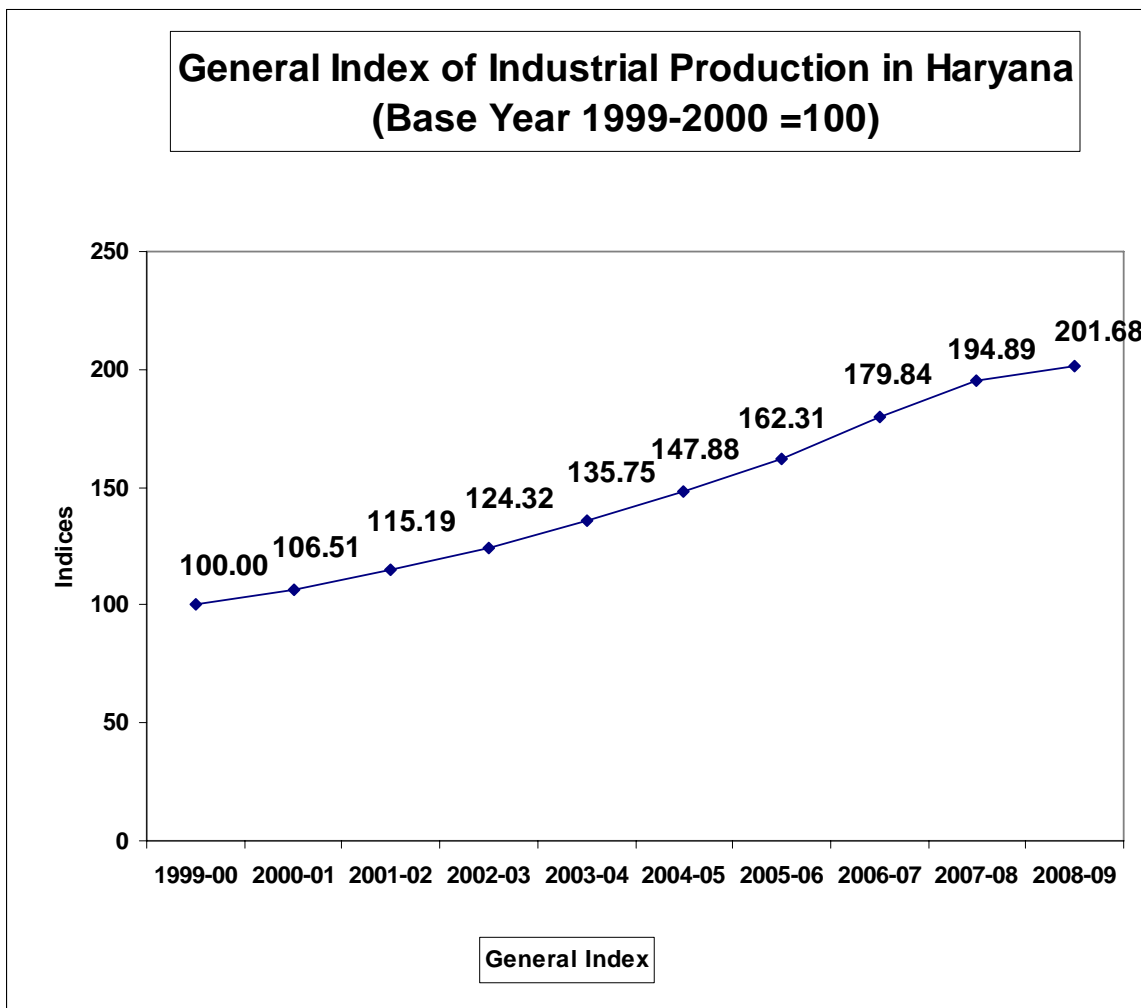

At the National level, Central Statistical Organisation (CSO), Government of India prepares all India Index of Industrial Production. The Department of Economic and Statistical Analysis, Haryana is preparing Annual Index of Industrial Production of Haryana since the year 1971-72. Due to liberal industrial policy and close proximity of the State to National Capital, the investment in the industrial sector is growing rapidly. There is need to continuously measure the growth of industrial sector with a view to assess and plan the industrial development schemes in the State.

A number of State Directorates of Economic & Statistics are also engaged in compiling the State level Index of Industrial Production. The Govt. of India has constituted a Technical Advisory Committee (TAC) in June, 1995 for an in-depth examination of various technical issues such as identification of representative items basket for individual State, development of corresponding weighting diagram with an appropriate linkage with the weighting diagram of all India's Index of Industrial Production etc. The TAC resolved technical issues relating to IIP and provided technical guidance in the matter of shifting the base year of current series to new series.

The recommendations of the Technical Advisory Committee on comparable Index of Industrial Production were examined by the Central Statistical Organisation (G.O.I.) and the guidelines on compilation of State level Index of Industrial Production were prepared. According to criteria laid down in the guidelines issued by Central Statistical Organisation (G.O.I.), the Directorate of Economic and Statistical Analysis, Haryana identified the items basket and prepared the weighting diagram for preparation of comparable State level Index of Industrial Production with 1999-2000 as base year.

In the present report the State indices of Industrial Production for Mining and Quarrying, Manufacturing and Electricity Sectors for the years 1999-2000 to 2008-09 with base year 1999-2000 have been given. Mining and Quarrying Sector has been included in the preview of IIP for the 1st time. The General Index of Industrial Production for the series with base year 1999-2000 is as under:-

Year	General Index of Industrial Production (Base Year 1999-2000 =100)	Percentage increase/ decrease over previous year
1999-00	100.00	-
2000-01	106.51	6.51
2001-02	115.19	8.15
2002-03	124.32	7.93
2003-04	135.75	9.19
2004-05	147.88	8.94
2005-06	162.31	9.76
2006-07	179.84	10.80
2007-08	194.89	8.37
2008-09	201.68	3.48

METHODOLOGY

Scope and Coverage

The Index of Industrial Production (IIP) is prepared annually as per National Industrial Classification (NIC) 98 for mining and quarrying, manufacturing and electricity sectors. The manufacturing sector covers the industries registered under section 2m(i) and 2m(ii) of the factory Act 1948 and functioning within jurisdiction of Haryana. The section 2m(i) refers to the units employing 10 or more workers with power and section 2m(ii) refers to the units employing 20 or more workers without power on any day of the preceding twelve months.

Base year

The Index of Industrial Production is being prepared in the State since 1971-72. To capture the changes in the industrial sector, the State series of IIP is revised from time to time by dropping obsolete items, including the new items in the basket and also by shifting the base year to a more recent one. The current State series of IIP has been revised by shifting its base from 1993-94 to 1999-2000 under the over all guidance of Central Statistical Organisation, Govt. of India, New Delhi.

The methodology for compiling an index of industrial production is two fold. The first stage is to identify and select the items to be included in the items basket which could monitor and reflect the performance of the industrial sector. The second stage is to allocate the weights to the items included in the items basket.

Selection of items basket

The State level IIP with base year 1999-2000 covers three major industrial sectors Viz mining & quarrying, manufacturing (Registered) and electricity. For selection of items basket, the requisite data based upon detailed results of Annual Survey of Industries 1999-2000 have been supplied by the CSO. The mining & quarrying and electricity sectors have been taken as single item.

In order to have proper representation at 2 digit level, the items basket for revised series of State IIP with base year 1999-2000 has to be identified in such a manner that all the items having at least 0.2 percent contribution in the total output of respective 2 digit categories has to be taken into account for selection. But despite general guidelines for selection of items, the cut off criteria in terms of item level percentage contribution in the output of 2 digit group has been taken as 1.00 percent to keep the size of items basket as manageable. The items included in the items basket are distinct in nature. Some items of similar nature have been grouped together at

the item level. Ambiguous items such as other product, by products and the items which can create problems at the stage of data collection have been excluded from the item basket. All items of mining and quarrying have been clubbed together as single item as scope of this sectors is very limited in Haryana State.

In all 103 items have been selected for the items basket which covers 79.31 percent gross value of output of registered manufacturing sector of the year 1999-2000. The selected items have been assigned use based codes i.e basic goods, intermediate goods, capital goods and consumer goods.

The selected items have been classified under 4 digit industry groups which in turn have been classified under 2 digit industry group.

List of selected items of manufacturing (registered) sector alongwith their respective gross value of out put have been shown in table no 1.1.

Weighting Diagram

After selection of items weightage of each item in the base year has been determined. For this purpose total weight has been taken as 1000. The total weight of 1000 has been first distributed to mining and quarrying, registered manufacturing and electricity sectors on the basis of Gross Value Added of each sectors for the year 1999-2000. The weights of registered manufacturing sector have further been distributed to various 2 digit industry groups (15-36) of NIC 98 in proportion to their GVA figures. The 2 digit level weights further distributed to represent 3 digit groups which, in turn, distributed to 4 digit classes within the respective 3 digit groups represented in the item basket. Finally the 4 digit level weights have been distributed to selected items in the respective 4 digit classes in proportion to item wise GVO figures. The weighting diagram prepared at item level is further assigned use based categories.

Since mining & quarrying and electricity sectors are single item sectors, no apportioning of weight has been done.

Table Number 1.2 shows the distribution of weights at sector level. Distribution of weight among selected groups at 2 & 3 digit level for the year 1999-2000 of manufacturing sector has been shown in table no 1.3& 1.4 respectively. Item level distribution of weights of manufacturing sector is available at table no 1.5.

Source of data

The production data for IIP is collected from the concerned industrial units in the State. For selection of factories for collection of production data for manufacturing sector the unit wise ASI frame of items selected in the items basket for the year 1999-2000 is used. The units

producing a particular item included in the items basket is first arranged in descending order of production and a cut off point not below 60% of the particular item is selected as sample for collection of data from field.

The State wise data on production of electricity supplied by Central electricity authority is used. Gurgaon and Faridabad districts are major producers of minerals in the State. Hence the data of total production of major and minor minerals is collected from these districts and used for calculation of IIP of this sector.

Computation of Index Number

The change in production of selected units producing the item in the current period viz-a-viz their production in base year is relative change in the production of the item. The total production of an item in the current period is estimated using the relative change in production of the selected units.

The Index is computed by using the Laspeyre's Formula : -

$$I = \frac{\sum R_i W_i}{\sum W_i}$$

Where I = Index Number

R_i = Production relative of ith selected item

W_i = Weight assigned to ith item

∑ = Summation of all items within each group upto major group (2 digit) level.

The production relative of an item is defined as percentage growth of the production compared to the base year production.

$$R_i = \frac{P_{ci}}{P_{oi}} \times 100$$

Where R_i = Production relative of ith selected item.

P_{ci} = Current year production of ith item

P_{oi} = Base year production of ith item.

The production relatives are thus calculated at product (4 digit) level of NIC code and the ultimate indices are calculated up to major group (2 digit) level. Sectoral Indices and General Index are based on weighted Laspeyre's Index Number.

36 - Manufacture of Furniture; Manufacturing n.e.c			
103	36999	Albums	1454
Total			3142431

Table-1.2**Distribution of Weights at Sector Level**

Sr. No.	Sector	Gross Value Added (GVA) for the year 1999-2000 (Rs. in lakh)	Weight
1	2	3	4
1	Mining & Quarrying	16034	18.83
2	Registered Manufacturing	787748	924.94
3	Electricity	47894	56.23
Total		851676	1000.00

Table-1.3

**Distribution of Weights of Registered Manufacturing Sector
at Two Digit Level for the year 1999-2000**

(Rs. in lakh)			
NIC Code 98	Industry Group	Gross Value Added (GVA)	Weight
1	2	3	4
15	Manufacture of food products & beverages	99118	116.38
16	Manufacture of tobacco products	387	0.45
17	Manufacture of textiles	29216	34.30
18	Manufacture of wearing apparel; dressing and dyeing of fur	30349	35.64
19	Tanning & dressing of leather ; manufacture of luggage, handbags, saddlery, harness and footwear	17864	20.98
20	Manufacture of wood and of products of wood and cork, except furniture; manufacture of articles of straw and plating materials	934	1.10
21	Manufacture of paper and paper products	7646	8.98
22	Publishing, printing and reproduction of recorded media.	4634	5.44
23	Manufacture of coke, refined petroleum products and nuclear fuel	685	0.80
24	Manufacture of chemicals & chemical products	36644	43.03
25	Manufacture of rubber and plastic products	24293	28.52
26	Manufacture of other non-metallic mineral products	18792	22.06
27	Manufacture of basic metals	71982	84.52
28	Manufacture of fabricated metal products, except machinery and equipment	21388	25.11
29	Manufacture of machinery & equipment n.e.c.	104792	123.04
30	Manufacture of office, accounting and computing machinery	16944	19.90
31	Manufacture of electrical machinery and apparatus n.e.c.	27372	32.14
32	Manufacture of radio, television and communication equipment and apparatus	20444	24.01
33	Manufacture of medical, precision and optical instruments, watches and clocks	9198	10.80
34	Manufacture of motor vehicles, trailers and semi-trailers	170531	200.23
35	Manufacture of other transport equipment	70895	83.24
36	Manufacture of furniture; manufacturing n.e.c.	3640	4.27
Total		787748	924.94

Part-II
Review
of
Index of Industrial Production
in
Haryana

REVIEW OF INDEX OF INDUSTRIAL PRODUCTION IN HARYANA 2008-09

The industry sector recorded an annual growth of 3.48 percent in 2008-09 over the previous year as the Index of Industrial Production increased from 194.89 in 2007-08 to 201.68 in 2008-09. The sector wise and group wise details of IIP are given below: -

Manufacturing Sector

The Index of Manufacturing Sector increased from 192.37 in 2007-08 to 196.85 in 2008-09 registering an annual growth of 2.33 percent over the previous year. Manufacture of office, accounting and computing machinery (30) recorded the highest growth of 22.12 percent followed by manufacture of wearing apparel dressing and dyeing of fur (18) which recorded growth of 11.27 percent. Manufacturing of chemical and chemical products (24) recorded growth of 9.09 percent, manufacture of medical, precision & optical Instruments, watches and clocks (33) recorded growth of 7.66 percent and manufacture of radio, television and communication equipment & apparatus (32) recorded growth of 6.78 percent. Tanning and dressing of leather, manufacture of luggage, handbags, saddlery, harness & footwear (19) recorded negative growth of 12.91 percent followed by manufacture of food products & beverages (15) recorded negative growth of 10.13 percent and publishing, printing and reproduction of recorded media (22) which also recorded negative growth of 3.88 percent.

Electricity Sector

The Index of Electricity Sector increased from 271.70 in 2007-08 to 316.43 in 2008-09 registering an annual growth of 16.46 percent over the previous year.

Mining and Quarrying

The Index of Mining & Quarrying sector increased from 89.46 in 2007-08 to 95.99 in 2008-09 exhibiting an growth of 7.30 percent.

Index of Industrial Production at Major Group (2-digit level) of Manufacturing Sector

1. Manufacture of Food Products and Beverages (15)

The food manufacturing industries carry the second highest weight of 116.38 in the manufacturing sector. The index of this group decreased from 144.04 in 2007-08 to 129.44 in 2008-09 indicating a negative growth of 10.13 percent. Malt exhibited highest growth of

102.15 percent followed by vanaspati 45.26 percent and biscuit, cookies 29.15 percent. The index of sugar, rice, powder milk and edible oil declined as compared to the previous year.

2. Manufacture of Tobacco Products (16)

Tobacco group carry a weight of only 0.45 in the manufacturing sector. The index of this group increased from 197.24 in 2007-08 to 200.49 in 2008-09 and recorded a growth of 1.65 percent. The highest growth of 7.66 percent was recorded by Tobacco, chewing (scented or not) in this group.

3. Manufacture of Textiles (17)

The textile industries carry a weight of 34.30 in the manufacturing sector. The index of this group decreased from 131.25 in 2007-08 to 130.09 in 2008-09 recording a negative growth of 0.88 percent . The index of cotton yarn recorded increase of 14.12 percent. Rest of the items in this group recorded negative growth.

4. Manufacture of Wearing Apparel; Dressing and Dyeing of Fur (18)

Wearing apparel industries has been assigned the weight of 35.64 in the manufacturing sector. The index of this group increased from 291.60 in 2007-08 to 324.46 in 2008-09 and recorded a growth of 11.27 percent. The index of leather garments & jackets has increased to 33.03 percent whereas the index of readymade garments has shown the growth of only 8.95 percent.

5. Tanning and Dressing of Leather; Manufacture of Luggage, Handbags, Saddlery, Harness and Footwear (19)

The leather Industries has been allotted a weight of 20.98 in the manufacturing sector. The index of this group has decreased from 176.90 in 2007-08 to 154.07 in 2008-09 and recorded a negative growth of 12.91 percent. The index of rubber chappels has recorded increase of 48.45 percent followed by canvas shoes 8.26 percent. The index of leather shoes has shown a decline of 18.13 percent.

6. Manufacture of Wood and Wood Products (20)

The wood industry has been assigned the weight of 1.10 only. The index of this group has increased from 147.79 in 2007-08 to 151.84 in 2008-09 and recorded a growth of 2.74 percent.

7. Manufacture of Paper and paper Products (21)

The paper Industries has been assigned the weight of 8.98. The index of this group increased to 157.27 in 2008-09 from 155.87 in 2007-08 recording a growth of 0.90 percent. Manufacture of corrugated sheet boxes recorded the highest growth of 9.17 percent followed by paper all kind which has recorded the growth of 0.22 percent over the previous year. Paper cartons/boxes has recorded negative growth of 1.05 percent in this group.

8. Publishing, Printing and Reproduction of Recorded Media (22)

The publishing and printing industries has been allotted the weight of 5.44. The index of this group decreased from 90.16 in 2007-08 to 86.67 in 2008-09 and recorded a negative growth of 3.88 percent. Journals/periodicals has recorded growth of 2.10 percent.

9. Manufacture of Coke, Refined Petroleum Products and Nuclear Fuel (23)

The petroleum industries carry a weight of 0.80. The index of this group has increased from 86.84 in 2007-08 to 88.38 in 2008-09 and recorded an increase of 1.78 percent. Aviation turbine fuel is the single products selected in this group.

10. Manufacture of Chemicals and Chemicals Products (24)

The chemical and chemical products industry group carry a weight of 43.03. The index of this group increased from 124.15 in 2007-08 to 135.44 in 2008-09 which indicates a growth of 9.09 percent. Manufacture of insecticides has recorded highest growth of 29.18 percent in this group followed by dyes & colors 9.77 percent. Sulphuric acid (incloleum) has recorded negative growth of 8.08 percent over the previous year.

11. Manufacture of Rubber and Plastic Products (25)

The rubber and plastic industries has been assigned a weight of 28.52. The index of this group has increased from 125.39 in 2007-08 to 128.38 in 2008-09 recording a growth of 2.39 percent. The manufacture of thermocol boxes recorded highest growth of 35.45 percent followed by rubber roll 8.51 percent. Thermocol packings & rubber sports goods has recorded negative growth of 18.03 and 2.31 percent respectively in this group.

12. Manufacture of other Non-Metallic Mineral Products (26)

This industry group carry weight of 22.06 in the manufacturing sector. The index of this group has increased from 164.95 in 2007-08 to 165.67 in 2008-09 recording a growth of

0.44 percent. Porcelain sanitary ware recorded the highest growth of 86.26 percent followed by ceramics tiles 16.21 percent. Asbestos corrugated sheet/Joints recorded negative growth of 48.46 percent followed by sheet glass which recorded a negative growth of 24.93 percent over the previous year.

13. Manufacture of Basic Metals (27)

Basic metal group carries a weight of 84.52 in the manufacturing sector. The index of this group decreased from 145.95 in 2007-08 to 142.42 in 2008-09 recording a negative growth of 2.42 percent. Beams (girder), iron/steel recorded the highest growth of 10.12 percent followed by stainless steel strips 6.09 percent. Bar, rods & rounds, iron/steel recorded negative growth of 44.80 percent followed by casting body which also recorded a negative growth of 20.56 percent.

14. Manufacture of Fabricated Metal Products, Except Machinery and Equipments (28)

Fabricated metal product industry carries a weight of 25.11 in the manufacturing sector. The index of this group increased from 145.93 in 2007-08 to 153.47 in 2008-09 recording a growth of 5.17 percent. Cylinder has recorded highest growth of 36.20 percent in this group followed by nuts bolts, screws & washers 32.75 percent. The index of electric stamping lamination has declined by 26.59 percent followed by tools which has recorded negative growth of 21.93 percent.

15. Manufacture of Machinery and Equipment n.e.c. (29)

Machinery and equipment industry carries the weight of 123.04 in the manufacturing sector. The index of this industry group increased from 152.82 in 2007-08 to 156.42 in 2008-09 recording a growth of 2.36 percent. Refrigerators ex deep freezer, engine cylinders & compressors have recorded the highest growth in this industry group whereas the growth of wheel MTD front dump loader declined by 33.42 percent. Packing machine has also recorded negative growth of 20.48 percent over previous year.

16. Manufacture of office, Accounting and Computing Machinery (30)

This industry group has been allotted the weight of 19.90 in the manufacturing sector. Core (ferrite) is single item selected in this group. The index of this group has increased from 128.40 in 2007-08 to 156.79 in 2008-09 recording a growth of 22.12 percent.

17. Manufacture of Electrical Machinery and Equipment n.e.c (31)

The electrical machinery and equipment industry group has been assigned weight of 32.14 in manufacturing sector. The index of this group has decreased from 177.19 in 2007-08 to

176.77 in 2008-09 recording an decrease of 0.24 percent. Conductors recorded highest growth of 75.75 percent followed by head light glass 27.36 percent. The growth of switch gear & control gears, auto/miniature, bulb & tubes, copper clad laminated sheets and A.C. motors has declined.

18. Manufacture of Radio, Television and Communication Equipment and Apparatus (32)

This industry group has been allotted weight of 24.01 in the manufacturing sector. Radio telephone system is single product selected in this industry group. The index of this group has increased from 290.44 in 2007-08 to 310.13 in 2008-09 and recorded a growth of 6.78 percent.

19. Manufacture of Medical, Precision and Optical Instruments, Watches and Clocks (33)

The medical and scientific instrument industry carries weight of 10.80 in the manufacturing sector. The index of this group has increased from 295.31 in 2007-08 to 317.93 in 2008-09 recording growth of 7.66 percent. Microscope recorded highest growth of 31.19 percent followed by Syringes all type 6.65 percent and surgical needle holders 0.16 percent. No item has recorded negative growth in this industry group.

20. Manufacture of Motor Vehicles, Trailers and Semi-Trailers (34)

This industry group carries highest weight of 200.23 in the manufacturing sector. The index of this group increased from 222.02 in 2007-08 to 234.00 in 2008-09 recording growth of 5.40 percent. Two products have been selected from this group. Motor car recorded highest growth of 6.81 percent followed by motor vehicle part and accessories 4.31 percent.

21. Manufacture of other Transport Equipment (35)

Other transport equipment industry has been assigned weight of 83.24 in the manufacturing sector. The index of this group increased from 356.36 in 2007-08 to 363.58 in 2008-09 recording a growth of 2.02 percent. The index of part and accessories for motor cycles, scooters and three wheelers recorded highest growth of 8.73 percent followed by motor cycle 1.26 percent. Bicycles has recorded negative growth of 7.78 in this industry group.

22. Manufacture of Furniture, Manufacturing n.e.c (36)

This industry group carries weight of 4.27 in the manufacturing sector. The index of this group has increased from 107.41 in 2007-08 to 108.21 in 2008-09 and recorded an increased of 0.75 percent.

Table-2.1**Annual Index of Industrial Production in Haryana at Sector level**

		Base year 1999-2000=100								
Sector	Weight	INDEX								
		2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09*

G-2.1 Index of Industrial Production in Haryana at Sector level (Base Year 1999-2000)

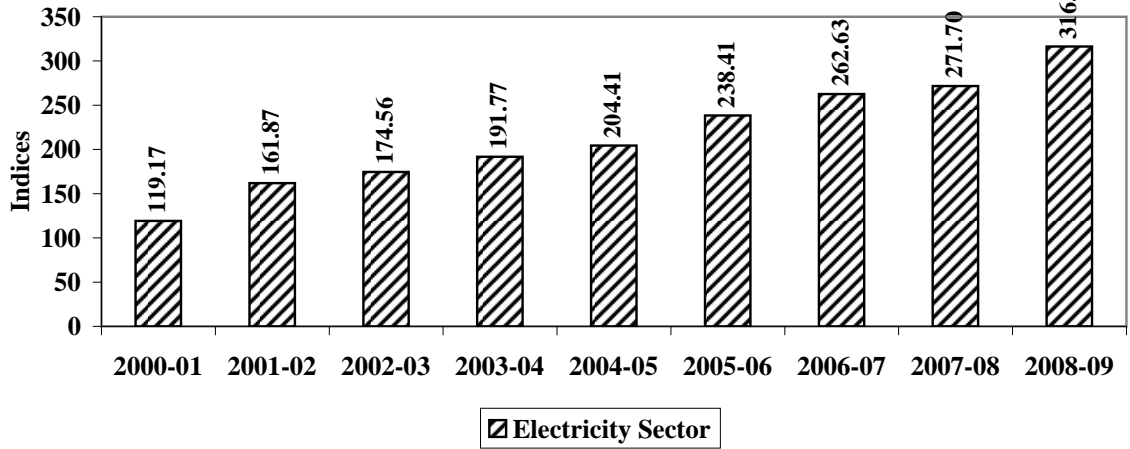

**G-2.2 Index of Industrial Production in Haryana
Manufacturing Sector 2008-09 at 2 digit level
Base Year 1999-2000**

**G-2-3 Index of Industrial Production in Haryana
Manufacturing Sector
Base Year 1999-2000**

**G-2.4 Index of Industrial Production in Haryana
Electricity Sector
Base Year 1999-2000**

**G-2-5 Index of Industrial Production in Haryana
Mining & Quarrying Sector
Base Year 1999-2000**

**G-2.6 General Index of Industrial Production in
Haryana
Base year 1999-2000**

Use-Based Classification

of

Index of Industrial Production

in

Haryana

INDEX OF INDUSTRIAL PRODUCTION IN HARYANA

Use-Based Classification

The Use-Based Classification represents the changing pattern of customer's needs, based on the tastes and habits towards the purchase of industrial products. The industrial products have been clubbed into four major groups comprising of Basic Goods Industries, Capital Goods Industries, Intermediate Goods Industries and Consumer Goods Industries with a view to analyse the movement of growth rate of different groups of industries and their achievements within the frame of organized sector.

The Use-Based Classification represents the classification of the industrial products according to the product applications. Each industry group reflects the variations in the production of a particular class of industries based on product usage. The industries are classified into four groups viz., Basic Goods, Capital Goods, Intermediate Goods and Consumer Goods with sub-groups such as Consumer Durable and Consumer Non-Durable Goods. Concepts and definitions for Use-Based Classification are given below.

(i) Basic Goods

Any bulk raw material product used for further production of new items in manufacturing and agriculture.

(ii) Capital Goods

Plants, machinery and goods used for further investments.

(iii) Intermediate Goods

Any goods product produced as incomplete product or which goes as input in production for further finishing.

(iv) Consumer Goods

a) Consumer Durable Goods

Products directly used by consumers and having a larger durability (say more than 2-3 years).

b) Consumer Non-Durable Goods

Products that are directly used by consumers and that cannot be preserved for long periods.

The share of each use-based industry group to the industry sector of the State and the number of industrial groups and items covered representing the use-based groups are as under: -

Share of each Use-Based Industry Group and Number of Industrial Groups and Items Covered

Base Year 1999-2000

Sr. No.	Industry Group	Weight	Number of Items covered	Number of Industry Groups
1.	Basic Goods Industries	191.43	20	10
2.	Capital Goods Industries	254.51	19	13
3.	Intermediate Goods Industries	207.25	23	16
4.	Consumer Goods Industries	346.81	43	31
	(a) Consumer Durable Goods	118.91	11	10
	(b) Consumer Non-Durable Goods	227.90	32	21
	Total	1000.00	105	70

2	Capital Goods Industries	254.51	93.94 (-6.06)	95.23 (1.37)	97.28 (2.16)	109.00 (12.05)	122.74 (12.60)	129.26 (5.32)	149.76 (15.85)	167.25 (11.68)	173.65 (3.83)
3	Intermediate Goods Industries	207.25	113.52 (13.52)	121.30 (6.85)	138.23 (13.96)	142.53 (3.11)	149.56 (4.93)	172.61 (15.41)	191.26 (10.80)	206.97 (8.22)	219.50 (6.05)
4	Consumer Goods Industries	346.81	110.32 (10.32)	121.93 (10.53)	133.80 (9.73)	152.23 (13.78)	172.25 (13.16)	188.91 (9.67)	207.90 (10.05)	223.64 (7.57)	223.55 (-0.04)
	(a)Consumer Durable Goods	118.91	116.98 (16.98)	140.97 (20.51)	161.26 (14.39)	195.47 (21.21)	238.83 (22.18)	263.71 (10.42)	295.73 (12.14)	315.40 (6.65)	323.93 (2.70)
	(b)Consumer Non-Durable Goods	227.90	106.84 (6.84)	111.99 (4.82)	119.47 (6.67)	129.67 (8.54)	137.52 (6.05)	149.88 (8.99)	162.07 (8.13)	175.76 (8.45)	171.18 (-2.61)
	General IIP	1000.00	106.51 (6.51)	115.19 (8.15)	124.32 (7.93)	135.75 (9.19)	147.88 (8.94)	162.31 (9.76)	179.84 (10.80)	194.89 (8.37)	201.68 (3.48)

* Provisional

During the year 2008-09, Basic Goods Industries recorded the highest growth of 8.13 percent followed by Intermediate goods industries 6.05 percent and Capital goods industries 3.83 percent. Consumer goods industries recorded negative growth of 0.04 percent.

A. Basic Goods Industries

Basic goods industries which has been assigned the weight of 191.43 recorded growth of 8.13 percent during the year 2008-09 as compared to the previous year. The index of this industry group rose from 166.48 in 2007-08 to 180.01 in 2008-09. Fertilizer, pesticides & insecticides, hot rolled/cold rolled sheet, stainless steel plate/flates/sheet, high carbon steel tubes & pipes, and

generation of electricity are the major products in this group. These items have significantly effected the index of this group. Insecticides, ceramics tiles, stainless steel strips, iron/steel Beams (girder) and electricity recorded a notable increase during the year 2008-09. Index of iron/steel bar, rods & rounds, casting body, iron/steel casting & forging and iron/steel sheets & plates etc. recorded negative growth over the previous year.

B. Capital Goods Industries

The Index of Capital Goods Industries having weight of 254.51 increased from 167.25 in 2007-08 to 173.65 in 2008-09 showing an increase of 3.83 percent. Motor car, tractors, refrigerators ex-deep freezer, desert coolers, AC motors, front dump loaders, switch gear & control gear/panel and insulated cable are major products of this group. Conductors recorded the highest growth of 75.75 percent followed by refrigerators ex deep freezer 61.75 percent and microscope 31.19 percent. Manufacturing of tools, packing machines, part & accessories for agriculture/forestry machinery, wheel mtd. front dump loader, A.C. motors, switch gear and control gear/ panel and copper clad laminated sheets recorded negative growth. All other items have recorded the positive growth.

C. Intermediate Goods Industries

The Intermediate Goods Industries carry a weight of 207.25. The Index of this industry group has increased from 206.97 in 2007-08 to 219.50 in 2008-09 recording an increase of 6.05 percent. Yarn, dyes & colors, cylinders, nut , bolt, screw & washers, core (ferrite), motor vehicle part & accessories and part & accessories of motor cycle, scooters and three wheelers are major products in this group. Aforesaid increase in the index is due to increase in the production of porcelain sanitary ware, cylinders, thermocol boxes and nut, bolt, screws & washers etc. The manufacturing of porcelain sanitary ware recorded the highest growth of 82.26 percent followed by cylinders 36.20 percent and thermocol boxes 35.45 percent during the year 2008-09 over the previous year. Thermocol packings, sheet glass, building bricks & electric stamping, woollen/shoddy yarn and electrical stamping lamination etc. have recorded negative growth during the year over previous year.

D. Consumer Goods Industries

Consumer Goods Industries has captured the weight of 346.81. This industry group has recorded negligible decrease of 0.04 percent during the year 2008-09 as the index of this group decreased from 223.64 in 2007-08 to 223.55 in 2008-09.

(a) Consumer Durable Goods Industries

The Consumer Durable Goods Industries has been assigned the weight of 118.91. The Index of this industry group has increased from 315.40 in 2007-08 to 323.93 in 2008-09 recording annual growth of 2.70 percent. Motor cycles, tyre/tube, radio telephone system, head light glass and bicycles are the main products of this group. Manufacturing of head light glass recorded the highest growth of 27.36 percent followed by rubber roll 8.51 percent and radio telephone system 6.78 percent during the year 2008-09 as compared to previous year. The manufacturing of auto/miniature lamps, bicycles and utencils all type recorded negative growth of 9.19 percent, 7.78 percent and 6.01 respectively.

(b) Consumer Non -Durable Goods Industries

The Consumer Non-Durable Goods Industries has been allotted the weight of 227.90. The Index of this industry group has decreased from 175.76 in 2007-08 to 171.18 in 2008-09 and recorded negative growth of 2.61 percent as compared to previous year. Rice, ghee, vanaspati, atta, sugar, edible oils, readymade garments, leather shoes, rubber chappals and paper all kind are the major products of this group. The production of malt, rubber chappals, vanaspati, leather garment and Jackets, biscuit, cookies & milk, skimmed, pasturised etc. recorded highest growth during the year 2008-09 over previous year. Sugar, rice, cotton handloom clothes, leather shoes & books etc. recorded negative growth.

Index of Industrial Production according to Use-Based classification for the years 1999-2000 to 2008-09 for Basic Goods Industries, Capital Goods Industries, Intermediate Goods Industries and Consumer Goods Industries (Durable and Non-durable Goods separately) has been represented in table No. 3.1.
